MEMORANDUM FOR: Executive Director, NPIC

THROUGH: Chief, Technical Services & Support Group,
NPIC

SUBJECT: TAGBOARD Clearance

REFERENCE: NPIC Instruction No. 10-2, dated
16 June 1970

1. Listed below are the names of individuals for which I am requesting a Tagboard clearance. These individuals fall within three areas of endeavor: evaluation and initial phase handling at the processing site, microdensitometry, and photogrammetry.

2. APSD is responsible for sending personnel to the processing site on the event of each Tagboard mission. In order to gain entry into the site, a Tagboard clearance is required. Furthermore, these same people perform the film quality evaluation. Hence, they also need the clearance so that they can look at operational information such as camera and vehicle characteristics. Since the evaluation includes densitometric data, personnel working in this area will need operational data to fulfill their evaluation responsibilities.

3. The photogrammetrists are engaged in preparing math models and camera manuals. It is essential that they too have access to operational data to perform their assigned tasks.

4. Since it is my understanding that the Tagboard Program is scheduled to become operational this month, it is requested that the following additional personnel be cleared immediately:
